

Congratulations on your hot air balloon flight!

Flights are scheduled at sunrise on weekends and 2-1/2 hours before sunset any day. Please have your certificate number ready when you call if applicable.

Balloon flights last about an hour. Passengers should allow at least 3 hours for the entire adventure. When reservations are made we will need to know passenger weight and any medical conditions that require special care.

Dress appropriately for weather on the ground. Jeans and athletic shoes are recommended. **Please, for safety reasons, no open shoes, sandals or flip-flops.** If you are tall a hat is suggested.

Cameras are welcome. We cannot be responsible for any damage.

This activity is very weather dependent. Here are a few reasons we may have to cancel a flight winds 8 miles or higher any rain within 50 miles and storms within 100 miles of our flying area. We will call you several hours prior to the flight to confirm that the weather is acceptable or to reschedule your flight. If you need to change your reservation please give us at least 48 hours notice.

Flights take place in the Louisville area.

This certificate has no cash value.

ANY FLIGHT CERTIFICATES MUST BE PRESENTED AT TIME OF FLIGHT.

We look forward to flying with you!
